

ICT NEWS 9 October 2014

The Driller

This web page provides a quick way of finding out what is available to bid for now and in the coming months. It features links to text extracted from a copy of the ICT workprogramme. **Recent update** includes links to slidesets used by Commission in briefings.

Collective Awareness Platforms URGENT

A consultation on the possible continuation of CAPS (and of other activities currently managed as "Net Innovation") is open at <https://ec.europa.eu/digital-agenda/en/news/public-survey-net-innovation-work-programme-2016-2017> . It is very important that you take a few minutes to tell us whether and how you'd like to see CAPS evolving in the future, keeping in mind that the deadline is THIS FRIDAY October 10th!

More on CAPS at ICT 2014 see:

<https://ec.europa.eu/digital-agenda/events/cf/ictpd14/item-display.cfm?id=12612>

FIRE [Future Internet Research Environment] Call for proposals

The Fed4FIRE: [Federation for FIRE] project launches its second call for proposals, from individual SMES who will carry out a brief Innovative Experiment which might involve the testing of new protocols algorithms or measurements etc. Details: (www.fed4fire.eu/)
Submission deadline: 30 October 2014, at 17:00 Brussels local time
Feasibility check deadline 23 October 2014, at 17:00 Brussels local time
