

ICT NEWS 26 Oct 2014

Horizon 2020 Calls Info Day:

Low Power Computing, Internet of Things and platforms for smart objects, ICT in Factories of the Future.

Brussels 17/12/2014

The objective of the day will be to inform the participants about the H2020 calls on Low Power Computing (ICT 4- with a special focus on Innovation Actions) , Internet of Things and Platforms for Connected Smart Objects (ICT 30), ICT-enabled modelling, simulation, analytics and forecasting technologies in Factories of the Future (FoF 8) and ICT Innovation for Manufacturing SMEs (FoF 9). Additionally to the networking possibilities and space to present the ideas, participants will have the possibility to ask questions to Commission staff about their proposal ideas.
