EU-Brazil 2015 Call (untangled...)

Read 'Chapter 2 - Section 3 Jointly funded actions' of the [Annotated Model Grant Agreement \(AGA\)](#)

Points to note (confirmed with EC sources):

Two proposals have to be submitted in parallel: one to the EC and the other to the CNPq (Brazilian funding agency). The two proposals will have a common Description of Work.

For the EU proposal, applicants are advised to add Brazilian organisation(s) in Part A with zero requested EU contribution next to them on the budget table. This will effectively allow for referencing Brazilian organisation(s) when describing the joint work in e.g., work packages or as required in the Part B's Template.

It is part of the eligibility criteria that a *Coordination Agreement* must be submitted with the proposals. [Article 41.5 of the AGA provides a list of items to be addressed in the agreement] Applicants may use the [Checklist for a Coordination Agreement for Coordinated Calls](#) of FP7 as a guide to draft their project-specific coordination agreement.

Collective Awareness Platforms for Sustainability & Social Innovation - ICT 10 Info Day

Paris [Centre Pompidou, 'La Petite Salle'] **24 February 2015 09:30-17:00**
