ICT / FET Proactive Call Results

We understand from The Commission that these will be sent to Coordinators five months to the day after the close of the call.

ICT Call 1 = September 23

FET Proactive = September 1

Much leakage / rumour and gossip is expected in advance of these dates. NCP will not be informed in advance by more than a few hours in advance of the publication. Reports of gossip etc gratefully received.

Problems with / Praise for The Portal???

Message from Participant Portal people

Dear NCP,

As you know, the Participant Portal is the unique entry point for the beneficiaries of FP7 projects, where all grant-related online exchanges can be accessed and managed. To make the system as user-friendly as possible, the Commission seeks continuous advice from the actual users. A next **meeting of an external user group is planned for 24 June 2014** afternoon in Brussels. For allowing maximum participation and input from a wide audience, this meeting will be **webcast with a live stream**. Additionally, a web forum will be used where any interested party can post questions and comments, either directly during the meeting or afterwards. The address of the **web forum** is:

<https://webgate.ec.europa.eu/fpfis/forums/research/participants/portal/viewforum.php?f=28>

Important remark: to prevent spamming from robots, you will need the following password to access the web forum (please feel free to distribute it): **forum**

The **video link** for the live stream will be available on the web forum on the day of the meeting. Please note that the video link will only start working on June 24 at 14.00 Brussels time (GMT+1). It will allow you to watch the meeting in real time. The recording of the meeting will be available shortly after the meeting at the same address. **<earlier text here deleted at Cion Request>**

A draft agenda will become available soon at the web forum site (see hyperlink above).

We would be grateful if you could **distribute this information to your constituency as quickly and as widely as possible.**

Best regards,

The eFP7 Communication Office
